

Essay.

Name: Kishore Ekka
Class: IX.
Parish: Uriamghat.

"Aim in Life."

What do we mean by aim in life?

Aim is an utmost desire of a person what he/she wants to be in the future. An aimless person is like a ship without a radar. Therefore, we all of us should have aim in life to achieve or become somebody in the society.

Life is not an easy sailing, with the passage of time our aim in life has become more and more complex. There are hundreds of professions in the world. Some go for acquiring knowledge, some money and fame, and also as we are in the modern world, we know that modern age is the age of science etc. However I have chosen myself something special for God, that is to be a good and humble priest in the future.

My aim in life is to become a priest to serve God and his fellow people of all universe.

After passing my HSLC Examinations,

I hope to join Seminary a special place, where I may be well-trained about my spiritual life and motivate disciplines because discipline is the habit of acting according to some rules.

Discipline is a very great value in every walk of life - it is necessary everywhere, and also to develop the quality of humilation.

To become a priest it is not easy, there will be lots of obstacles and temptations in our life but we have to overcome from it.

Everybody can not become a priest for that God gives a call to a particular person to be his Soldier.

I am trying my excellence to be a priest and do the works/duties usually what a priest does.

Priest is a special person chosen by God, so as a priest I will offer Holy Mass for the people, baptize them in the name of the Lord, hear their confessions, give Sacraments, visit the sick and anoint them, and do all religious activities. Besides that I will inspire the people and preach the word of God.

In my conclusion I would like to say, my parents have very kindly offered support in my aim to be a good priest to serve God and do service to my countrymen.

Since I am a son of Assam hope to serve all people of the world.

Only time will tell how I fare in my mission.

"Where there is will, there is the way."
